NEW... SAMUEL ADAMS NITRO PROJECT *Taste The Unexpected!*

Nitro beers are known for their captivating cascade and smooth creaminess. Yet for many, Nitro is solely linked to stout. We're breaking that mold, introducing three styles that all have Nitrogen as a 5th ingredient.

NITRO COFFEE STOUT: DARKLY ENTICING - Cream cascades into a jet black brew revealing a rich, robust character. The roasted malts create notes of bitter-sweet chocolate with dark fruit, while the Sumatran & Indian Monsoon Malabar coffees develop an added dimension and subtle, roasty finish.

NITRO WHITE ALE: WHITE CAPPED AND LIVELY - The frothy white head cascades into bright gold. Starts smooth and velvety with a light wheat character and hints of orange, while an undercurrent of peppery spice adds a bright finish.

NITRO IPA: BOLDLY BITTER YET SURPRISINGLY SMOOTH - A cap of frothy smoothness gives way to brawny hop intensity beneath. Resinous pine and citrus hop notes lead to a flavorful, lingering finish. Nitro can mute aroma and leave bitterness, so we used heavy doses of dry hopping to achieve the bold hop character we love.
